

BULLETIN July 5, 2024 Follow us on social media!

Attention all National Federations! We would appreciate it if you could share this bulletin with your entire Aquatic Family.

Featured Athlete:

Juan Carlos López Muñoz (COL)

Water Polo

Juan Carlos López Muñoz is the #8 player of the Colombian water polo team. He started playing water polo when he was 8 years old because he was going to swimming classes and the sport caught his attention. He has been part of the Colombian team on multiple 2 South occasions: American Championships, a South American U-16, a Pan American U-17, and a South American U-19. He just participated in the Pan American U-19 and is now part of the team that is representing his World country in the U-18 Championships.

Since he was 15 years old, he has represented his region's team, becoming champions twice. He shared with us in a recent interview that he considers these types of competitions to be an "excellent experience for each athlete because you can really see what the international level of all the teams is. For each country and each delegation, it is a very beautiful experience, and it is a very interesting training preparation for everyone."

Juan Carlos is an aquatic athlete with a lot of potential and his mentality is something that stands out.

Juan Carlos: "For a long time my goal was to represent my country in a senior category, being able to play with the greatest of my country and being able to live the experience of play in a selective senior championship."
